

## **Price Increase Notification**

Dear Patients,

After careful deliberation, Denali OBGYN Clinic has made the decision to increase some of our fees. Due to the rising costs of our suppliers and the fluctuation in the economy over the years, we felt it necessary to adjust to the cost of some of the services we provide.

We try to keep our prices down as long as we can and keep our services as affordable as possible for our patients. We often do not increase our fees, however as costs continue to rise, it is necessary to increase our prices as well.

It is an honor and a privilege to serve you and patient care remains our top priority. If you have any questions regarding our fee changes, please feel free to ask the staff and Denali.

Sincerely,

Denali OBGYN Clinic
